- 6 live online group tutorial. There is the opportunity for a question and answers in these meetings.
- Exclusive access to a pre-recorded demonstration video on the fourth day of the course to inspire new work.
- It is possible for you to record each live workshop onto your own device, so that you can watch it again to refresh your memory of the exercises and suggestions.

- There is a Facebook group page created for students on this course. You can add photos of your work here and give each other feedback. Please add a friends request to **Summer School online**

We will be using **Zoom** for our Video Communication. It is really easy to use. If you are not familiar with it then perhaps practise with family and friends. You will be emailed a password and login to enable you to join the meeting at the specified time. Emily will be online half an hour before the workshop starts so you can check in earlier so that you can be ready and waiting,

**After the course if you would like one to one feedback with Emily using Zoom she would be very happy to book you an appointment. Please arrange this with Emily and contact her via [emily@emilyball.net](mailto:emily@emilyball.net) The cost of this tutorial will be £30 for a (generous) half hour meeting.**

#### **How students need to prepare**

**You will need to organise your work space.**

Make sure that you have enough room to work, and some wall space to put up studies and paintings as you go through the week.

Will you be working at an easel, flat on a table, on the floor or straight onto the wall? Or perhaps a mixture of all of these, space permitting. Consider how you would like to use your space in a way that feels inspiring and allows room for plenty of experimentation. You could set up different work

stations and get materials ready for each one to allow you to smoothly transition from each process to the next. Be organised. It will really help the flow of your work and keep your head clear too.

### **Choose the location for your landscape inspiration.**

This might be right on your doorstep, in your garden. Or it might be your daily walk in the countryside near you. It could be the trees you can see in a neighbour's garden does not have to be big expansive space

### **Gather and prepare your materials.**

#### **Paper**

- You will need lots of cartridge paper to do some drawn studies on. Size and weight of paper is not critical. What ever you can get your hands on. If you can work large, A1, then it would encourage a spacious, freer and more physical approach to your work but you can be equally expressive on a smaller scale too, but perhaps you will need double the number of sheets so you can work rapidly and physically.
- You will also need 12, A6 pieces of paper (postcard size).

#### You may wish to paint on paper:

- With acrylics make sure the paper is no less than 300gms in weight. To make finished paintings you will need at least 3 of the same size and shape, plus a few sheets for painted studies too.
- With oils the paper does not necessarily need to be sized or primed. Again the heavier and better quality paper is preferable. It is actually rather lovely working straight onto unsealed paper in oils. It stains and dries very quickly. The only thing you must be aware of is that with thick areas of paint, in time, there will be an oily halo appear around the paint, as the oil leaches into the surrounding bare paper. This is not something I dislike, but just so you know. You may prefer to prime your paper. A couple of thin coats of acrylic primer, gesso or household white emulsion would be good.

### **If you prefer to paint on Canvas or Board**

#### **Canvas**

Stretched canvas on a frame, or loose primed canvas off a roll (this could be wrapped around a board to give a firm surface to work on or stapled to the wall). Again 3 of the same shape and size required, as you will be working series.

#### **Boards to paint on**

Prepared artists boards are fine.

Pieces of MDF from your shed or garage. Priming might be a good idea but some artists rather like the unprimed surface too.

Smooth cardboard or mountboard are options too.

(3 of the same shape and size required, as you will be working series).

### **Painting over old paintings**

There are many artists who like to do this. Although there can be some nice surprises I would recommend for this workshop that you have clean surfaces to work.

## **Paints and other materials**

I APPRECIATE THAT GETTING HOLD OF EXTRA MATERIALS MAY NOT BE POSSIBLE AT THE MOMENT, SO PLEASE TAKE THE LIST BELOW AS A GUIDE ONLY.

### **A guide to what colours to use in both acrylics and oils**

The following list of colours enable you mix a fantastic range of colours. (No need to buy earth colours or greens).

Titanium White, Lemon Yellow, Cadmium Yellow, Indian Yellow, Cadmium Red or Vermillion, Alizarin Crimson, Magenta, Cobalt Blue, Cerulean Blue, Ultramarine Blue, Indigo, Cobalt Violet.

I also frequently use Oil Sticks as well as the paint.

### **Mediums and equipment for oils and acrylics**

**Oils** - In my own studio I never use White spirit or Turpentine. It is highly toxic and smelly. I

recommend Shellsol T which you can buy from Jacksons Art supplies of A P Fitzpatrick (this is a solvent which is an alternative to white spirit to clean your brushes with and thin the oil paint). I recommend that you use a 'Drying medium' (to speed up the drying time). I use a 50/50 mix of Linseed stand oil and Shellsol T. I find this mix odourless and very effective. If you cannot get hold of either of these open all your doors and windows to get lots of ventilation and use the mediums you already have.

**Lots of Rags - I use rags to paint with a lot. So a good supply of cotton rags are essential.**

### **Acrylics**

Ideally acrylics should be diluted with acrylic mediums NOT water. So please have some acrylic mediums that say they will increase the flow and transparency of the paint. Some offer the option of increasing the gloss as well. That is up to you. I quite like glossy but some artists prefer matt.

### **Brushes for Oils and Acrylics**

It is important to have lots of brushes in a wide variety of shapes and sizes. Avoid having too many flat brushes instead buy Filberts, Rounds, Liners/Riggers. For bigger brushes I frequently go to hardware and decorating shops. Good makes are Princeton and Omega for large brushes. You will definitely need a couple of rigger brushes. These are traditionally used for water colour and have very long fine bristles, fantastic for delicate continuous lines. I recommend a few palette knives too, of differing shapes and sizes. Again use what you can get hold of in this situation.

### **Other materials**

You will be making drawings as well as painting so it would be helpful to have;

Charcoal, an eraser, soft pencils, felt tip pens, black and white oil sticks (and other colours too if you have them), Charcoal powder, Sennelier Black ink and other Sennelier coloured inks would be great too.

By all means use mixed media too particularly with acrylic paints; inks, oil sticks, chalk and oil pastels, felt tip pens etc.

Masking tape, a glue stick and scissors will also be useful.
